LEGISLATIVE FRAMEWORK

In terms of chapter 1(i) of the Municipal Finance Management Act (MFMA), the SDBIP is a detailed plan approved by the mayor of a municipality in terms of section 53(1)(c)(ii) for implementing the municipality's planned service delivery and its annual budget and must indicate:

- a. projections for each month of-
 - i. revenue to be collected by source; and
 - ii. operational and capital expenditure, by vote;
- b. service delivery targets and performance indicators for each quarter; and
- c. any other matters that may be prescribed."

MFMA Circular 13 also states that the SDBIP provides the vital link between an executive mayor, a council and an administration, and facilitates the process for holding management accountable for their performance. Furthermore, it states that the goals and objectives set by the municipality must be quantifiable outcomes that can be implemented by the administration over the next twelve months. MFMA Circular 48 provides further guidance for municipalities and municipal entities in preparing their budget and Medium-term Revenue and Expenditure Framework (MTREF).

In addition, in line with the new National Treasury Guidelines and Regulation, municipalities are required to ensure that their SDBIP contains the following:

- Budget implementation plan
- Budgeted monthly revenue and expenditure
- Budgeted monthly revenue and expenditure by municipal vote
- Budgeted monthly revenue and expenditure by standard classification
- Budgeted monthly capital expenditure by municipal vote
- Budgeted monthly capital expenditure by standard classification
- Consolidated budgeted monthly cash flow
